

Harbour Management Board

For Meeting to be held on: 9 June 2010

**For Recommendation
to Council**

Brief / Brief Holder:

Finance and Assets, Councillor Peter Chapman

General Manager:

Facilities and Business Operations Helen Frances

Report Author:

Peter Mole

Corporate Priority:

Be a well managed council

Policy:

Weymouth Harbour Annual Report 2009/10

Purpose of Report

1. To summarise the financial and operational performance of Weymouth Harbour and demonstrate competent management. To report to stakeholders the main activities and events during the period and report compliance with the Port Marine Safety Code and relevant legislation.

Officer's Recommendations

2. That the attached report titled Weymouth Harbour Board Annual Report 2009/10 be accepted as an appropriate record of the competent governance and management of the harbour during the period.

Background

3. The Municipal Ports Review sought to improve the management and long term prospects for municipal ports by improved governance, greater stakeholder consultation, greater accountability and improved financial control, reporting and planning.

Key Issues

4. With the establishment of the Harbour Board and requirement to improve accountability and stakeholder communication a report of this nature should meet local needs while becoming normal practice in Municipal ports which are more advanced than we are in emulating trust ports and plc owned ports.

Appendices

5. Appendix 1 – Annual Report
